The Holy Trinity: The Father, The Son, And The Holy Spirit.

The Bible tells us about God the Father, God the Son, and God the Holy Spirit.

But emphasizes that there is only one God.

The reality of the Holy Trinity is that God is a spirit with unlimited power and ability and has chosen to represent Himself to us as a three part being who is really one.

The Dragon, The Beast, And The False Prophet.

Most prophecy books and articles claim that the unholy trinity of revelation thirteen is the dragon, the beast and the false prophet.

Or the devil, the antichrist, and the false prophet.

But I'm here suggesting and proving that the real unholy trinity of revelation thirteen is in fact the beast, his image, and his mark.

But this scenario is extremely more sinister and slightly more unbelievable than the other one.

So I ask the readers to keep an open mind and search the scriptures and pray themselves for validation and clarification to understand that what I'm about to reveal in this article is absolutely true.

First of all, we know that God's Holy Trinity consists of the Father, the Son and Holy Spirit.

We know that the Father God has absolute power and authority and is all knowing or omnipotent.

And we know The Father sent His Son Jesus in His image to do His will.

Then we learned from Jesus that God sent us a helper, the Holy Spirit, who lives and dwells inside of us; who also teaches and guides us.

But before Jesus and the Holy Spirit arrived, prophecy foretold that John the Baptist was the prophet who made way for Jesus and fulfilled the early prophecies.

So then the false prophet in revelation thirteen is not part of the unholy trinity or the devils fake attempt to emulate and mock God for three reasons.

One is while the false prophet can do signs and wonders to trick people into worshiping the image of the beast, he cannot do what the Holy Spirit does.

He can not dwell inside of everyone in the world and collect information about them, but the mark of the beast is some kind of computer chip they'll put inside of people, which will have the ability to read and control a person's mind in addition to locate and identify everything about them including race, beliefs, social status, and finances.

Making it a perfect counterfeit of the Holy Spirit.

So the mark of the beast is the phony holy spirit, not the false prophet who is a counterfeit of John the Baptist, the real prophet.

Secondly, the dragon can't substitute the Father as the devil in the unholy trinity because he is limited in power and knowledge in comparison to God and most people wouldn't worship him knowing him as he is and what he's done.

And third, while the term antichrist would make you think the antichrist is the opposite of Christ; therefore, he's the counterfeit son.

The image of the beast better represents son-ship because his image is part of him just like the son Jesus is part of the Father God.

And also his mark is part of him just like the Holy Spirit is part of the Father and Son.

So the antichrist is the fake God that people will worship and by doing so they also worship the devil.

This also makes it so the false prophet comes before the Son just like John the Baptist, the true prophet, came before Jesus as the one crying in the wilderness.

Making the proper order the Father, the Prophet, the Son, then the Holy Spirit.

And the devils counterfeits; beast one, beast two, beast one image, beast one mark.

Now doesn't that make more sense?

Now here's where it gets scary.

The Beast, The Image, And The Mark.

The Beast

The antichrist world ruler and the combined supremacist political and blasphemous religious systems.

Revelation thirteen suggests that he probably is a CYBORG: or part man and part machine.

This would give him the ability to access all the information collected by the image of the beast that comes from the mark of the beast.

And therefore making him all knowing like God.

He is the devils counterfeit replacement of the all knowing, ever present, and all seeing omnipotent God the Father.

With the power of technology, his image and his mark, he'll have the ability to spy on and control everyone on planet earth.

The Image Of The Beast

Highly advanced ARTIFICIAL INTELLIGENCE and computer technology or a self thinking super computer brain programmed to carry out the will of his father the antichrist.

A counterfeit of Jesus which can process the information it receives from the mark and make decisions similar to a human but with far greater efficiency and without distractions.

Just look at the computer technology in your home, isn't it cool?

But I promise you the stuff they're using is light years ahead of that.

And for your information, the big three corporations are all funding artificial intelligence based projects: Microsoft, Google, and Apple.

And I'm sure there are plenty more lesser known companies as well.

Do some research and you'll see that artificial intelligence is closer to reality than you may think.

The Mark Of The Beast

Highly advanced personal identification, location tracking, MIND READING AND MIND CONTROLLING, computer micro-chip technology is the devils counterfeit replacement of the Holy Spirit of God, who dwells inside of us and knows everything about us including our innermost thoughts, fears, and desires of the past, present, and future.

OK, I know this part sounds far-fetched, but do a little research and you'll find that they've already proven that a computer can capture the thoughts of a human and display it on the screen like a phone conversation.

And they've already proven that a person can control a computer by thoughts alone and vice versa.

Not to mention all the subliminal advertising they've done on TV that works.

They'll easily send signals to control a person's mind.

The mark is probably meant to block the Holy Spirit from operating inside of people.

And that's most likely one of the main reasons God is so strict about not taking the mark of the beast.

Some people believe they already have a system in place to record, display, and process phone calls, text messages, and emails.

Do you really think they would tell you if they did?

Look at the GPS tracking capabilities of your phone.

Some of these phones can track your location even when they're turned off.

Look at the emergence of crypto-currency or cyber currency, it's not ready for prime time yet, but it certainly has a good testing ground until it is.

Other technological advances that are improving that can make a difference include satellites, the internet, and device battery life.

The ability to do these things is already here.

All they have to do is simply improve and combine the technologies.

The False Prophet

The religious leader or spiritual occult leader, who convinces people to worship the antichrist's three part beast system by performing miracles and propagating lies.

In conclusion, the devil must set up the antichrist with future technology as a three part being in order to duplicate the capabilities of God the Father, God The Son, and God the Holy Spirit, because he doesn't have the ability to do what God can do: namely, he's not all powerful and knowing, he can't come back as a man like Jesus did, and he doesn't have a spirit that dwells inside of people like the Holy Spirit.
